90% Teamwork

- ☑ Game development
- ☑ Cutting-edge CSS tech
- ☑ 3D printing
- ☑ Logical thinking
- ☑ Optimistic attitude
- ☑ Precision

EDUCATION & EXPERIENCE

2017

**Junior Full Stack Webdeveloper
Green Fox Academy**

Started programming in Python I've learnt how to write a code that is clean and easy to understand. My specialization is the web developing. It means learning the HTML5, CSS3 and javascript. Using Ajax, creating webserver, learning to use API-s, exception handling and unit testing.

2009 - 2017

**Quality manager
Gedeon Richter PLC,
Balint Analytics LTD**

In my previous professions I worked for 7 years in a laboratory as a quality manager. Here I've learnt the importance of quality assurance. For measuring toxic agents from workplace air I needed to be precise, calm and team player.

2002-2009

**Environmental engineer
Budapest University of
Technology and Economics**

I've a master degree in Environmental Enginering. During my studies I've acquired the engineering approach and a deeper logical thinking. This is where I met with my first programing language: the Turbopascal.
